## ABOUT ME

I am currently pursuing my Master of Computer Applications (MCA). I hold a Bachelor of Computer Applications (BCA) degree, which has provided me with a solid foundation in computer science and programming. Throughout my academic journey, I have developed a keen interest in various areas of technology, including software development, data analysis, and web technologies. I am passionate about learning new programming languages and frameworks, and I enjoy tackling complex problems through coding. Recently, I have focused on learning Python for full-stack development.

## EDUCATION

### Bachelor of Computer Application(BCA)

**2022-2025**

I am a recent graduate with a **Bachelor of Computer Applications (BCA)** from **Noble University, Junagadh**. Throughout my academic journey, I have developed a strong foundation in computer science and its applications, gaining skills in programming, software development, and database management. My education has equipped me with the knowledge to tackle real-world challenges in the tech industry, and I am eager to apply my skills in a professional setting. I am passionate about technology and continuously seek opportunities to learn and grow in this dynamic field.

## COURSE

**2025-NOW**

Recently, I have focused on learning **Python for full-stack development**. This journey has allowed me to explore both front-end and back-end technologies, enhancing my skills in building dynamic and responsive web applications. I am particularly interested in frameworks like Django and Flask for back-end development, as well as HTML, CSS, and JavaScript for the front end.

## SKILL

- HTML
- UI/UX Design
- programming
- Communication
- problem solving
- Team-work

## ACADEMIC PROJECT

online Clothing - HTML , CSS , JavaScript

Art Gallary Management - PHP , HTML , JavaScript , CSS

Tourism Management system - PHP , HTML , JavaScript , CSS
